

Implementation partnership

Operationalising the National Food and Nutrition Security Plan · 2027–2037

Private briefing for the NFNSP Technical Working Group / Department of Agriculture. Not a government publication. Not an awarded tender. Not a current NSNP daily headcount.

22.2%

Households with inadequate or severely inadequate food access

GHS 2024, as cited in NFNSP-2

~29%

Children under five stunted (severe 15%; Framework baseline 27%)

NFNS 2023

17.6%

People below the food poverty line of R777 pp/pm (2023 prices)

Poverty Trends 2025

10 / 20 / 30%

Smallholder share of government food procurement

Plan targets 2029 / 2033 / 2037

Honesty: programme-reported meals to date are in the hundreds of thousands (355 000 on the Group site), not millions. The 2.5 million children-per-day NSNP figure is a DBE-pathway plan, not a current daily headcount. SupplierAdvisor® does not replace BAS or LOGIS.

HOW TO READ FIGURES

Official statistics (GHS 2024, NFNSS 2023, Poverty Trends 2025, NFNSP-2 Draft 2.2 / Results Framework 27 August 2026) carry a source. Group figures carry a label: plan, programme-reported, product specification, or internal comparison. This document does not invent government contracts, awarded tenders, or current daily NSNP volumes. SupplierAdvisor® does not replace BAS or LOGIS. No learner names. No beneficiary databases on the partner portal. This briefing does not replace the Plan; it proposes how to operationalise it.

03 · EXECUTIVE SUMMARY

South Africa has a Plan. What it needs now is an implementation partner that can put a lawful plate on the table, a verified smallholder lot behind that plate, and proof that both happened — without claiming a government contract that has not been awarded.

The National Food and Nutrition Security Plan 2027–2037 (NFNSP-2 Draft 2.2, July 2026, and Results Framework 27 August 2026) is the Department of Agriculture's blueprint for Goals 1–3 and Enablers A–C: reduce hunger; scale nutrition for the first 1 000 days and school feeding; build inclusive food systems with a rising smallholder share of public procurement; and enable that work through governance, data (MELIA), and a lawful finance/procurement path.

The Plan's own numbers are the case for urgency. GHS 2024: 22.2% of households have inadequate or severely inadequate food access (Northern Cape 34.3%, Eastern Cape 31.2%, North West 30%). NFNSS 2023: about 29% of children under five stunted; 15% severely (Framework working baseline 27%). Poverty Trends 2025: 17.6% below the food poverty line of R777 pp/pm (2023 prices); 71% of the poor in 2023 were under 35. Plan targets: 10% / 20% / 30% smallholder share of government food procurement by 2029 / 2033 / 2037, and complementary feeding in 50% of high-risk areas by 2029.

Big Five Group (Pty) Ltd proposes to operationalise those goals as one coherent system — not nine disconnected companies. Agri verifies smallholders. Foods turns grain into fortified ambient meals in 5 kg institutional formats. Direct takes the plate to the last mile. Connect (SupplierAdvisor®) is the farm-to-fork operating system. Leadership (Super-Cube®) forms the people. Access opens capital. Impact is the PMO. Foundation channels 10% of group profits with proof. Global holds standards when corridors extend.

We ask for 90 days: a closed technical briefing; KwaZulu-Natal named as joint demonstration province (two local municipalities + one metro cluster); a time-boxed PFMA/MFMA workstream; a MELIA data protocol; and a seat at the private-sector round tables the 27 August 2026 Framework is already written for. Scale only after a closed circuit holds. A second high-inadequacy province (Eastern Cape is the Plan's own reference) is Phase 2 — not a current claim.

THIS WORKSPACE

Confidential partner briefing. It is not a government publication, not an awarded tender, and not a claim of current NSNP daily headcount. Programme-reported meals to date: 355 000 (Group site). 2.5 million children per day is a DBE-pathway plan.

04 · WHAT THE DEPARTMENT'S PLAN ASKS

Goals 1–3 as read from NFNSP-2 Draft 2.2 (July 2026) and the Results Framework of 27 August 2026. This page states the problem and what the Plan asks. How Big Five answers each goal follows on pages 6–7.

GOAL 1

Reduce hunger — plates that can be bought and proved

GHS 2024: 22.2% of households have inadequate or severely inadequate food access. Worst: Northern Cape 34.3%, Eastern Cape 31.2%, North West 30%. Hunger is an access and last-mile problem as much as a production problem.

The Plan asks: A meal institutions can buy lawfully (PFMA/MFMA), kitchens can cook in minutes, that holds ambient, and that can be proved by lot — not a slogan.

GHS 2024, as cited in NFNSP-2

GOAL 2

Scale nutrition — first 1 000 days and school feeding

NFSS 2023: about 29% of children under five stunted; 15% severely. Framework working baseline: 27%. Complementary feeding in 50% of high-risk areas by 2029 is a Plan target, not a Group delivery claim.

The Plan asks: High-impact nutrition for women, infants and children; NSNP/ECD/CNDC plates that are fortified, fast to cook, and safe; people in kitchens who can run the protocol.

NFSS 2023 · Framework 27 Aug 2026

GOAL 3

Inclusive food systems — smallholder share of public procurement

Plan targets 10% (2029) / 20% (2033) / 30% (2037) smallholder share of government food procurement. That target fails if the smallholder has no identity, no GPS, no lot and no invoice that PFMA can see.

The Plan asks: Verified producers, aggregation, a mill that can take a lot, and a buying path that is lawful — not a database of names without trade.

NFNSP-2 procurement horizons

05 · ENABLERS THE GOALS CANNOT RUN WITHOUT

ENABLER A · GOVERNANCE AND COORDINATION

The Plan asks: A multi-department briefing that can actually sit: NFNSP TWG, DoA secretariat, DBE NSNP, DoH nutrition, DSD food-centre / ECD, KZN Treasury, SALGA KZN. Private-sector round tables and municipal roadshows the 27 August 2026 Framework is written for.

Big Five: Impact as PMO — one programme, one risk register, one cadence. Super-Cube® so coordination is a skill, not a meeting. 90-day asks 1 and 5.

ENABLER B · DATA AND MELIA

The Plan asks: Evidence that a plate was produced, held, shipped and received — inside the Plan's monitoring architecture, not in a parallel dashboard.

Big Five: SupplierAdvisor® extracts sit inside MELIA, not beside it. Lot-and-kitchen proof only. No learner names. SchoolAdvisor gates: a kitchen that is not ready does not receive the next lot.

ENABLER C · FINANCE AND PROCUREMENT

The Plan asks: A time-boxed answer to how a fortified ambient meal and a smallholder-linked lot can be bought lawfully — and which rule the 2029 10% target actually requires.

Big Five: 90-day ask 3 before any scale claim. Access for capital. Connect GL / AR / AP / VAT and selected bank feeds (FNB Integration Channel, BankLink). Foundation: 10% of group profits as a complementary rail.

HORIZONS THE PLAN ITSELF WRITES

10%

2029

Complementary feeding in 50% of high-risk areas

20%

2033

Scale only after a closed-circuit demonstration

30%

2037

National pathway — not a current claim

06 · EACH OBJECTIVE, ANSWERED WITH A CIRCUIT

Not a slogan against a target. Each Plan goal is answered with named pillars, labelled Group figures, and an explicit non-claim where the work is still pathway design.

GOAL 1 — REDUCE HUNGER

- Foods: fortified porridge, soya, OnePot and soups at approximate institutional cost points (~R1.10 soup / ~R1.30 soya / ~R2.50 OnePot). Internal comparison: ~50% below wholesale/retail. 24-month ambient shelf life (product specification).
- Direct: last-mile nodes so the plate reaches rank, rural and informal-trade markets. SANTACO 15 000 containers is pathway design, not a live national fleet.
- Connect: purchase orders, invoices and lot holds so a school or CNDC can show what was received.
- Impact: programme gates so delivery is reported as programme-reported until audited.

Pillars: Foods · Direct · Connect · Impact

GOAL 2 — SCALE NUTRITION

- Foods: one SKU family across NSNP, ECD, CNDC and holiday packs. 5 kg institutional formats. 5-minute porridge / 20-minute OnePot. 74% more nutrition / 185% more fortification are formulation/design claims — lab pack in the first 90 days.
- Leadership (Super-Cube®): whole-person capability for implementers, school-environment support, and municipal nutrition officers.
- Connect / SchoolAdvisor: kitchen gates and lot-and-kitchen proof. No learner names.
- Foundation: 10% of group profits (standing Group policy) as a complementary CSI rail — not a substitute for the fiscus.

Pillars: Foods · Leadership · Connect · Foundation

07 · SMALLHOLDERS, GOVERNANCE, DATA, FINANCE

GOAL 3 — INCLUSIVE FOOD SYSTEMS / SMALLHOLDER PROCUREMENT

- Agri: regenerative onboarding, soil and practice verification, offtake into Foods. Farmers are trained as suppliers, not as beneficiaries of a once-off drop.
- Connect (SupplierAdvisor®): identity, GPS, lots, invoices so the 10% target survives PFMA.
- Foods mill: BOM, MPS, MRP, HACCP — the lot becomes a plate.
- Access: institutional, CSI and DFI pathways that finance real offtake, not workshops.
- Direct: local markets so smallholder value is not trapped at the farm gate.

Pillars: Agri · Connect · Foods · Access · Direct

ENABLER A — GOVERNANCE

- Impact as PMO: one programme plan, one risk register, one reporting cadence.
- Leadership: Super-Cube® for public servants and implementers so coordination is a skill, not a meeting.
- 90-day asks 1 and 5: the closed briefing and the seat at tables already in the Framework.

Pillars: Impact · Leadership

ENABLER B — DATA AND MELIA

- SupplierAdvisor® extracts sit inside MELIA, not beside it (90-day ask 4).
- Lot-and-kitchen proof only. No learner names. No beneficiary PII on this portal. POPIA purpose-limited.
- SchoolAdvisor gates: a kitchen that is not ready does not receive the next lot.

Pillars: Connect · Impact

ENABLER C — FINANCE AND PROCUREMENT

- 90-day ask 3: PFMA/MFMA workstream before any scale claim.
- Access: capital pathways for verified nodes and producers.
- Connect: GL / AR / AP / VAT and selected bank feeds (FNB Integration Channel, BankLink) so money and lots reconcile.
- Foundation: 10% of group profits as a complementary rail.

Pillars: Access · Connect · Foundation

08 · FEED · EDUCATE · EMPOWER

The Department does not need nine vendors. It needs one circuit that can put a lot on a mill, a plate in a kitchen, and proof in MELIA. Agri → Connect → Foods → Direct, with Leadership forming people and Impact reporting honestly.

01 Agri Smallholders onboard with practice, soil and identity. Grain is a lot, not a donation.	02 Connect SupplierAdvisor® records the lot, the invoice, the hold. BAS/LOGIS stay.	03 Foods The mill turns the lot into a fortified ambient plate.	04 Direct The plate moves to school, ECD, CNDC, rank and rural node.	05 People Leadership runs the kitchen. Impact reports programme-reported until audited.
--	---	---	--	---

NINE PILLARS — WHAT EACH DOES FOR NDA

FEED Agri Goal 3 — the 10% smallholder target has no meaning without producers who can invoice.	FEED Foods Goals 1 and 2 — the plate. Certifications as published on bigfivegroup.africa/foods .	EDUCATE Leadership Goal 2 agency + Enabler A — programmes fail when people are unformed.
EMPOWER Connect Goal 3 proof + Enablers B and C — the OS the Plan can actually use. Not BAS/LOGIS.	EMPOWER Direct Goal 1 access — 15 000 containers is pathway design, to be measured.	EMPOWER Access Enabler C — capital behind a lawful buy.
CROSS-CUT Impact Enabler A — one PMO, not nine slide decks.	CROSS-CUT Foundation Goal 2 complementary feeding CSI — 10% of group profits, standing policy.	EMPOWER Global After a closed KZN circuit — not a current scale claim.

WHERE EACH PILLAR SITS ON THE PLAN

PILLAR	G1 Hunger	G2 Nutrition	G3 Smallholder	EA Gov.	EB MELIA	EC Finance
Agri	—	—	●	—	—	—
Foods	●	●	●	—	—	—
Leadership	—	●	—	●	—	—
Connect	●	●	●	—	●	●
Direct	●	—	●	—	—	—
Access	—	—	●	—	—	●
Impact	●	—	—	●	●	—
Foundation	—	●	—	—	—	●
Global	—	—	—	—	—	—

Gold mark = primary contribution. Global is held until a closed KZN circuit — not a current scale claim.

09 · WHY NOW — THE PLAN'S OWN NUMBERS

Access is not improving fast enough

GHS 2024: 22.2% of households have inadequate or severely inadequate food access. Northern Cape 34.3%, Eastern Cape 31.2%, North West 30%.

GHS 2024, as cited in NFNSP-2

Stunting remains a first-1 000-days crisis

NFNSS 2023: about 29% of children under five stunted; 15% severely. Framework working baseline: 27%. Complementary feeding target: 50% of high-risk areas by 2029.

NFNSS 2023 · Framework 27 Aug 2026

Poverty is young

Poverty Trends 2025: 17.6% of people below the food poverty line of R777 per person per month (2023 prices). 71% of the poor in 2023 were under 35.

Poverty Trends 2025, as cited in the Plan

Procurement must reach smallholders

Plan targets: 10% (2029) / 20% (2033) / 30% (2037) smallholder share of government food procurement. That target only survives PFMA if lots, invoices and identity are real.

NFNSP-2 procurement horizons

READING THE PLAN

NFNSP-2 Draft 2.2 (July 2026) and the Results Framework of 27 August 2026 are the source documents. This briefing does not replace them. The 27 August 2026 Framework is written for private-sector round tables and municipal roadshows. The 90-day ask is a seat at those tables — not a claim that they have already been held with Big Five.

WHO WE ARE

Big Five Group (Pty) Ltd — KwaZulu-Natal. Feed (Foods, Agri, Direct), Educate (Super-Cube®), Empower (SupplierAdvisor®, Foundation, Impact). Dr. Craig R. Muller, Founder — craig@bigfivegroup.africa · +27 (0) 82 581 4215. This is a private partner workspace for the NFNSP Technical Working Group / Department of Agriculture. It does not speak for the Department.

10 · BIG FIVE FOODS — LABELLED GROUP FIGURES

One SKU family across NSNP, ECD, CNDC and holiday packs. Ambient, fortified, institutional 5 kg formats where school- or clinic-linked.

~R1.10 soup / ~R1.30 soya / ~R2.50 OnePot per meal

Institutional cost points, approximate

~50% below wholesale/retail

Internal cost comparison

24-month ambient shelf life

Product specification

74% more nutrition / 185% more fortification

Formulation / design claims; lab pack in first 90 days

ISO 9001, FSSC 22000, Sedex, SANHA Halaal, Kosher, SAAFoST
As published on bigfivegroup.africa/foods

FIVE WORKSTREAMS A–E

A Plates

One SKU family across NSNP, ECD, CNDC and holiday packs. 5 kg institutional packs.

B Markets

Costed container / micro-hub spec for an IDP / DDM One Plan. SANTACO rank + rural nodes.

C Producers

SupplierAdvisor® identity, GPS, lots, invoices so the 10% target survives PFMA.

D Agency

5-minute porridge / 20-minute OnePot; 6–23 month complementary feeding. Super-Cube® for implementers.

E OS

Onboarding, FNB/BankLink feeds, SchoolAdvisor gates, POPIA MELIA extract. No learner names.

DEMONSTRATION DESIGN

Phase 1: two KZN local municipalities + one metro cluster (rural Zululand-type, peri-urban, dense informal-trade node in eThekweni or Msunduzi).
Phase 2: a second high-inadequacy province (Eastern Cape is the Plan's own reference). Scale only after a closed circuit holds.

11 · OPERATING SYSTEM

One workspace: network, buy, make, hold, ship, pay, prove

SupplierAdvisor® does not replace BAS or LOGIS. It is the trade and quality layer those systems do not have.

Verified network + OTIFEF	POs, invoices, lot holds	Inventory
BOM / MPS / MRP	GPS shipping	HACCP holds that stop ship
SHEQ	SchoolAdvisor	ContainerAdvisor®
Full GL / AR / AP / VAT	FNB Integration Channel + BankLink	Yoco-class last-mile acceptance

ACTOR TABLE — FARM TO FORK

ACTOR	ROLE IN THE CIRCUIT
Smallholder	Identity, GPS, lots, invoices so the 10% target survives PFMA.
Aggregation hub	Receive, grade, lot, hold.
Foods mill	BOM, MPS, MRP, HACCP, ship-or-hold.
Trader / distributor	OTIFEF, inventory, invoices.
School / ECD / CNDC	SchoolAdvisor gates. Lot-and-kitchen proof. No learner names.
Municipality / Treasury	SLA, IDP/SDBIP annex, PFMA/MFMA workstream.
Bank / CSI / DFI	FNB Integration Channel and BankLink feeds where selected.

12 · FIVE ASKS

What is asked in 90 days is a closed briefing, a named province, a lawful buying path, a MELIA protocol, and a seat at the tables already written into the Framework. Scale only after a closed circuit holds.

01 Closed technical briefing

NFNSP TWG, DoA secretariat, DBE NSNP, DoH nutrition, DSD food-centre / ECD nutrition, KZN Provincial Treasury, SALGA KZN.

02 Name KwaZulu-Natal

Joint demonstration province — two local municipalities + one metro cluster.

03 PFMA / MFMA workstream

Time-boxed: how a fortified ambient meal and a smallholder-linked lot can be bought lawfully — and which rule the 2029 10% target actually requires.

04 Data protocol

SupplierAdvisor® extracts sit inside MELIA, not beside it. No learner names.

05 A seat at the tables

Private-sector round tables / municipal roadshows the 27 August 2026 Framework is written for.

IN RETURN (90 DAYS)

Costed node pack

Three-menu institutional basket vs a reference school meal

Producer-onboarding protocol

Draft municipal SLA for an IDP/SDBIP annex

One-page risk register

13 · GOVERNANCE AND RISK — WHAT THIS BRIEFING IS NOT

RISK	MITIGATION
Presented as an awarded NSNP contract	This briefing is a proposal. No government contract is claimed.
2.5 million daily meals read as current	Labelled as DBE-pathway plan, not current headcount.
BAS / LOGIS replacement fear	Explicit non-claim: SupplierAdvisor® does not replace BAS or LOGIS.
Learner data in MELIA extract	Lot-and-kitchen proof only. No learner names. POPIA purpose-limited.
PFMA / MFMA cannot buy the meal	90-day time-boxed legal workstream is ask 3 — before scale.

COMMERCIAL MODEL — LABELLED GROUP FIGURES, NOT GOVERNMENT CONTRACTS

355 000 meals

Programme-reported, not audited public stats

2.5 million children / day

DBE-pathway delivery plan, not current headcount

15 000 SANTACO containers

Pathway design

~20 jobs per mature node

Design intent, to be measured

10% of group profits to Foundation

Standing Group policy

CONCLUSION

The Plan has the targets. The Group has plates, an operating system, and a demonstration design. What is asked in 90 days is a closed briefing, a named province, a lawful buying path, a MELIA protocol, and a seat at the tables already written into the Framework. Nothing here is an awarded tender, a current daily NSNP headcount, or a replacement for BAS or LOGIS.

Dr. Craig R. Muller · craig@bigfivegroup.africa · +27 (0) 82 581 4215 · bigfivegroup.africa
