HOW TO READ FIGURES

Official Goal, Enabler and Game-changer titles are from NFNSP-2 Draft 2 (July 2026) and the Results Framework of 27 August 2026. Official statistics (GHS 2024, NFNSS 2023, Poverty Trends 2025) carry a source. Group figures carry a label: plan, programme-reported, product specification, or internal comparison. This document does not invent government contracts, awarded tenders, current daily NSNP volumes, or Framework cells left as XX. SupplierAdvisor® does not replace BAS or LOGIS. No learner names. Treasury, DoH, DSD/SASSA and COGTA/SALGA lead VAT, labelling, grants and the local mandate — Big Five operationalises lots, plates, nodes and MELIA extracts. This briefing does not replace the Plan; it proposes how to operationalise it.

South Africa has a Plan with named Goals, Game Changers and Enablers. What it needs now is an implementation partner that can put a lawful plate on the table, a verified smallholder lot behind that plate, and proof that both happened.

target

Framework 2029–2037

Goal 1 transforms the local agri-food system. Goal 2 is equitable access to nutritious, safe, affordable food. Goal 3 protects the vulnerable. Enabler A is governance; B is resourcing; C is capacity, innovation and MELIA. Sources: NFNSP-2 Draft 2 (July 2026) and the Results Framework of 27 August 2026.

Big Five Group runs those Game Changers as one circuit: Agri verifies producers, Connect proves the lot, Foods mills the plate, Direct moves it to hub, market, rank and kitchen. Leadership forms people. Impact reports honestly. We do not gazette VAT, grants or a Food and Nutrition Security Act.

90 days: a closed technical briefing; KwaZulu-Natal as joint demonstration; a PFMA/MFMA workstream for Game Changer 1.2; a MELIA data protocol; a seat at the Framework's round tables. Scale only after a closed circuit holds.

Confidential partner briefing — not a government publication, not an awarded tender. 355 000 meals is programme-reported. 2.5 million children per day is a DBE-pathway plan. SupplierAdvisor® does not replace BAS or LOGIS.

The companies are instruments of one purpose. The Plan needs a partner that already answers to a north star — not a slide deck assembled for a tender.

VISION

A prosperous Africa — for everyone on it

Well-being is not a privilege. Families eat with dignity, leaders decide with integrity, and communities build economies they own. That is the same destination as the NFNSP-2 vision of well-coordinated, inclusive, just local food systems.

MISSION

Feed. Educate. Empower.

We deploy skills, capital, platforms and relationships so Africa can feed its people, educate its leaders, and empower its enterprises — at scale and with proof. That is how Big Five shows up against Goals 1-3 and Enablers A-C.

VALUES

What we refuse to compromise

Humanity, innovation, integrity, excellence, and purposeful impact. Values shape how we hire, partner, trade and deliver — including on this Plan.

FIVE VALUES ON THIS PLAN

Humanity

Goal 3: dignity in kitchens and the first 1 000 days — a plate and a livelihood path, not a grant we set.

Innovation

Enabler C and Goal 1.2: lots, ambient plates, SchoolAdvisor gates. Not BAS or LOGIS.

Integrity

Labelled figures. Programme-reported until audited. No awarded-tender claim.

Excellence

HACCP, published certifications, Super-Cube® for the people who run the protocol.

Impact

PMO under Enabler A. Scale only after a closed KZN circuit holds.

Feed · Educate · Empower is not a slogan beside the Plan. It is the way nine pillars become one delivery against Goals 1-3 and Enablers A-C.

01 FEED

Agri · Foods

Regenerative production and fortified nutrition — farm gate to school kitchen.

Goal 1: hubs, markets, smallholder lots, traders.

Goals 2-3: affordable plates, NSNP, ECD, CNDC, complementary feeding.

Agri opens the lot. Foods mills the plate.

02 EDUCATE

Leadership · Super-Cube®

Whole-person leadership for public servants, kitchen teams and implementers.

Goal 2.3 behavioural change and Enabler C capacity.

Coordination becomes a skill, not a meeting. We do not write the national SBCC or the Grade 1-12 curriculum.

03 EMPOWER

Connect · Direct · Access · Global

Last-mile rails, capital access, verified trade and corridors.

Goal 1.2 invoices that survive PFMA. Goals 1.1 and 1.4: IDP/DDM nodes and trader infrastructure.

Enabler B: capital behind a lawful buy. Global waits for a closed circuit.

CROSS-CUTTING · IMPACT · FOUNDATION

Impact is the PMO — Enabler A, one programme, one risk register. Foundation channels 10% of group profits with proof. Complementary CSI — not a substitute for the fiscus or SASSA.

Transformation of the local agri-food system to be sustainable, diversified, and inclusive

Lead: Agriculture. GHS 2024: 22.2% of households still have inadequate food access. Framework: 1 / 3 / 5 new agri-hubs and produce markets per municipality by 2029 / 2033 / 2037.

22.2%

Inadequate household food access

GHS 2024

10%

Smallholder procurement by 2029

Framework

20%

Smallholder procurement by 2033

Framework

30%

Smallholder procurement by 2037

Framework

1.1 Local food value chains — agri-hubs, produce markets, distribution centres

Plan: Municipal spatial planning for agri-hubs, produce markets and distribution centres; revitalise with the private sector; producer-development support.

Big Five: Direct specifies a costed IDP / DDM node. Agri onboard lots. Connect records identity, GPS and hold. Foods mills. 90-day return: costed node pack.

Limit: we do not claim a national agri-hub build-out. Demonstration first.

1.2 Government food procurement from local smallholder producers

Plan: Link public kitchens to local markets. Review procurement so smallholders survive the rules. Target: 10% / 20% / 30% of the food-procurement budget.

Big Five: Connect: lots and invoices so the 10% target survives PFMA. Foods: 5 kg institutional SKUs. 90-day ask 3: PFMA/MFMA workstream.

Limit: Treasury and DoA lead policy. We make a lot those rules can buy.

Urban and peri-urban production, informal traders and spaza shops

Goal 1 continues: production on municipal and customary land, and a hygienic informal market. Framework XX cells are not invented here.

1.3 Urban and peri-urban household and smallholder production

Plan: Extension, farmer support, land access through municipal spatial plans, tenure that can underpin loans. Register targets: +10% / +25% / +50% by 2029 / 2033 / 2037.

Big Five: Agri trains producers as suppliers. Super-Cube® forms implementers. Access finances offtake where tenure is defensible. Connect is a verified network, not a mailing list.

Limit: we do not allocate land. COGTA, SALGA and traditional authorities lead. We take a verified producer into trade.

1.4 Informal traders and spaza shops — infrastructure and healthy food

Plan: Trading space with storage, water, energy and security; sale of local produce and healthy food; health-and-safety that fits informal operations.

Big Five: Direct: SANTACO-rank and rural node spec (15 000 containers is pathway design).

Foods: ambient SKUs without a cold chain. Connect: HACCP holds.

Limit: SALGA / COGTA lead by-laws. DoH leads norms. We specify a node and a plate those norms can use.

Equitable and dignified individual, household and community access to nutritious, safe, affordable, and healthy food

Leads: Treasury (affordability), DoH (regulation), GCIS / DBE (behaviour).

17.6%

Below the food poverty line

Poverty Trends 2025

60%

Households above FPL by 2029

Framework target

~R1.10–2.50

Institutional meal cost points

Group, approximate

2.1 Affordable healthy food in the local food environment

Plan: Price stabilisation, VAT methodology, food-waste redirection, possible national food reserve. Targets: 60% / 70% / 80% of households above the food poverty line.

Big Five: Foods: ~R1.10 soup / ~R1.30 soya / ~R2.50 OnePot (internal comparison). Ambient 24-month shelf life. 90-day return: three-menu basket versus a reference school meal.

Limit: Treasury leads VAT, subsidies and a food reserve. We put a costed plate on the table.

2.2–2.3 Regulate the food environment and shift behaviour toward healthy diets

Plan: Front-of-pack labelling, advertising rules, school-ground norms; a costed SBCC and nutrition in the Grade 1–12 curriculum.

Big Five: SchoolAdvisor gates kitchens and vendors (no learner names). Super-Cube® forms implementers. Instant fortified porridge: water or milk, under a minute. OnePot ~20 minutes. Foundation CSI is complementary, not a curriculum.

Limit: DoH gazettes FoP. DBE and GCIS lead school norms and SBCC. We run the gate and the plate.

Mitigate risks to the most vulnerable through social, livelihood, and nutrition protection

Leads: DSD / SASSA, DoH and DBE. NFNSS 2023: about 29% of children under five stunted (Framework baseline 27%).

~29%

Children under five stunted

NFNSS 2023

Instant fortified porridge — water or milk

Product specification

355 000

Meals, programme-reported

Group site

3.1 Strengthened social-support systems

Plan: A social-security net aimed at ending food insecurity; livelihood pathways; close holiday and seasonal gaps.

Big Five: Offtake so a grant household can become a supplier. CNDC and holiday packs.

Foundation CSI is complementary — not a substitute for SASSA.

Limit: DSD, SASSA and Treasury lead grant levels. We do not set the Child Support Grant.

3.2–3.3 High-impact nutrition and the first 1 000 days

Plan: NSNP, ECD, CNDC, fortification, holiday referrals. Complementary feeding 6–23 months in 50% then 100% of high-risk areas. Any voucher instrument is DSD lead.

Big Five: Instant fortified porridge is the malnutrition plate: add water or milk; ready in under a minute. No stove cycle, no cold chain, no trained cook. One SKU family across NSNP, ECD, CNDC and holiday packs. SchoolAdvisor: lot-and-kitchen proof. No learner names.

Limit: 2.5 million children per day is a DBE-pathway plan, not current headcount. We do not issue nutrition vouchers.

10 · GOVERNANCE, RESOURCING, CAPACITY AND DATA

In the official Plan, Enabler B is resourcing — not MELIA. Enabler C is capacity, innovation and technological support, and it is Enabler C that carries data and MELIA. This page uses those titles.

A Multi-actor food-system governance

Plan: NFNS Council, IMC on Poverty, Premier and Mayoral committees, a Food and Nutrition Security Bill, IDP / DDM One Plans, quarterly round tables.

Big Five: Impact as PMO. 90-day asks 1 and 5: closed TWG briefing and a seat at Framework tables. Return: draft municipal SLA for an IDP/SDBIP annex.

Limit: we do not appoint the Council or draft the Act. COGTA and SALGA lead the local mandate.

B–C Resourcing, capacity, innovation and MELIA

Plan: Enabler B is resourcing (costing, DFIs, 50% then 100% of unfunded activities). Enabler C is capacity and data — MELIA sits here, not under B.

Big Five: Access and Foundation finance offtake. Super-Cube® forms people. SupplierAdvisor® extracts sit inside MELIA. Lot-and-kitchen proof. No learner names.

Limit: we do not reallocate votes. SupplierAdvisor® does not replace BAS or LOGIS.

11 · NINE PILLARS AS ONE CIRCUIT

The Department does not need nine vendors. It needs one circuit mapped to the Plan's Game Changers: Agri opens a lot (1.3), Connect proves it for the 10% target (1.2), Foods mills a plate (Goals 2–3), Direct moves it to hub, market, rank and kitchen (1.1, 1.4). Leadership forms people. Impact reports programme-reported until audited.

01 Agri Smallholders onboard with practice, soil and identity. Grain is a lot, not a donation.	02 Connect SupplierAdvisor® records the lot, the invoice, the hold. BAS/LOGIS stay.	03 Foods The mill turns the lot into a fortified ambient plate.	04 Direct The plate moves to school, ECD, CNDC, rank and rural node.	05 People Leadership runs the kitchen. Impact reports programme-reported until audited.
--	---	---	--	---

NINE PILLARS — WHAT EACH DOES FOR NDA

FEED Agri Goal 3 — the 10% smallholder target has no meaning without producers who can invoice.	FEED Foods Goals 1 and 2 — the plate. Certifications as published on bigfivegroup.africa/foods .	EDUCATE Leadership Goal 2 agency + Enabler A — programmes fail when people are unformed.
EMPOWER Connect Goal 3 proof + Enablers B and C — the OS the Plan can actually use. Not BAS/LOGIS.	EMPOWER Direct Goal 1 access — 15 000 containers is pathway design, to be measured.	EMPOWER Access Enabler C — capital behind a lawful buy.
CROSS-CUT Impact Enabler A — one PMO, not nine slide decks.	CROSS-CUT Foundation Goal 2 complementary feeding CSI — 10% of group profits, standing policy.	EMPOWER Global After a closed KZN circuit — not a current scale claim.

WHERE EACH PILLAR SITS ON THE PLAN

Global	—	—	—	—	—	—

Gold mark = primary contribution. Global is held until a closed KZN circuit — not a current scale claim.

12 · WHY NOW — THE PLAN'S OWN NUMBERS

Access is not improving fast enough

GHS 2024: 22.2% of households have inadequate or severely inadequate food access. Northern Cape 34.3%, Eastern Cape 31.2%, North West 30%.

GHS 2024, as cited in NFNSP-2

Stunting remains a first-1 000-days crisis

NFNSS 2023: about 29% of children under five stunted; 15% severely. Framework working baseline: 27%. Complementary feeding target: 50% of high-risk areas by 2029.

NFNSS 2023 · Framework 27 Aug 2026

Poverty is young

Poverty Trends 2025: 17.6% of people below the food poverty line of R777 per person per month (2023 prices). 71% of the poor in 2023 were under 35.

Poverty Trends 2025, as cited in the Plan

Procurement must reach smallholders

Plan targets: 10% (2029) / 20% (2033) / 30% (2037) smallholder share of government food procurement. That target only survives PFMA if lots, invoices and identity are real.

NFNSP-2 procurement horizons

READING THE PLAN

NFNSP-2 Draft 2 (July 2026, internal discussion) and the Results Framework of 27 August 2026 are the source documents. Official Goal, Enabler and Game-changer titles are used in full. The 90-day ask is a seat at the Framework's private-sector round tables — not a claim that they have already been held with Big Five. Several Framework cells remain XX and are not invented here.

WHO WE ARE

Big Five Group (Pty) Ltd — KwaZulu-Natal. Feed (Foods, Agri, Direct), Educate (Super-Cube®), Empower (SupplierAdvisor®, Foundation, Impact). Dr. Craig R. Muller, Founder — craig@bigfivegroup.africa · +27 (0) 82 581 4215. This is a private partner workspace for the NFNSP Technical Working Group / Department of Agriculture. It does not speak for the Department.

13 · BIG FIVE FOODS — LABELLED GROUP FIGURES

One SKU family across NSNP, ECD, CNDC and holiday packs. Instant fortified porridge is the malnutrition plate: add water or milk; ready in under a minute. Ambient, fortified, institutional 5 kg formats where school- or clinic-linked.

FIVE WORKSTREAMS A-E

A Plates

Instant fortified porridge (water or milk, under a minute) plus soya, OnePot, soups. 5 kg institutional packs.

B Markets

Costed container / micro-hub spec for an IDP / DDM One Plan. SANTACO rank + rural nodes.

C Producers

SupplierAdvisor® identity, GPS, lots, invoices so the 10% target survives PFMA.

D Agency

Instant fortified porridge (water or milk, under a minute); ~20-minute OnePot; complementary feeding. Super-Cube®.

E OS

Onboarding, FNB/BankLink feeds, SchoolAdvisor gates, POPIA MELIA extract. No learner names.

DEMONSTRATION DESIGN

Phase 1: two KZN local municipalities + one metro cluster (rural Zululand-type, peri-urban, dense informal-trade node in eThekweni or Msunduzi). Phase 2: a second high-inadequacy province (Eastern Cape is the Plan's own reference). Scale only after a closed circuit holds.

One workspace: network, buy, make, hold, ship, pay, prove

SupplierAdvisor® does not replace BAS or LOGIS. It is the trade and quality layer those systems do not have.

Verified network + OTIFEF	POs, invoices, lot holds	Inventory
BOM / MPS / MRP	GPS shipping	HACCP holds that stop ship
SHEQ	SchoolAdvisor	ContainerAdvisor®
Full GL / AR / AP / VAT	FNB Integration Channel + BankLink	Yoco-class last-mile acceptance

ACTOR TABLE — FARM TO FORK

ACTOR	ROLE IN THE CIRCUIT
Smallholder	Identity, GPS, lots, invoices so the 10% target survives PFMA.
Aggregation hub	Receive, grade, lot, hold.
Foods mill	BOM, MPS, MRP, HACCP, ship-or-hold.
Trader / distributor	OTIFEF, inventory, invoices.
School / ECD / CNDC	SchoolAdvisor gates. Lot-and-kitchen proof. No learner names.
Municipality / Treasury	SLA, IDP/SDBIP annex, PFMA/MFMA workstream.
Bank / CSI / DFI	FNB Integration Channel and BankLink feeds where selected.

What is asked in 90 days is a closed briefing, a named province, a lawful buying path, a MELIA protocol, and a seat at the tables already written into the Framework. Scale only after a closed circuit holds.

01 Closed technical briefing

NFNSP TWG, DoA secretariat, DBE NSNP, DoH nutrition, DSD food-centre / ECD nutrition, KZN Provincial Treasury, SALGA KZN.

02 Name KwaZulu-Natal

Joint demonstration province — two local municipalities + one metro cluster.

03 PFMA / MFMA workstream

Time-boxed: how a fortified ambient meal and a smallholder-linked lot can be bought lawfully — and which rule the 2029 10% target actually requires.

04 Data protocol

SupplierAdvisor® extracts sit inside MELIA, not beside it. No learner names.

05 A seat at the tables

Private-sector round tables / municipal roadshows the 27 August 2026 Framework is written for.

IN RETURN (90 DAYS)

Costed node pack

Three-menu institutional basket vs a reference school meal

Producer-onboarding protocol

Draft municipal SLA for an IDP/SDBIP annex

One-page risk register

Big Five Impact is the PMO under Enabler A: one programme, one risk register, one cadence. Foods, Agri, Direct, Connect, Leadership, Access and Foundation deliver through that voice. Projected demonstration design — not an awarded tender. Scale only after a closed circuit holds.

0 Mobilise · 90 days

Enabler A. Close the five asks. Impact PMO, node pack, three-menu basket, producer protocol, draft SLA.

1 Closed KZN circuit · 2027–2028

Goals 1–3 in two locals + one metro. Instant porridge, lots, nodes, Super-Cube®, MELIA extracts. Scale gate.

2 Second province · 2029

Only if Phase 1 holds. Eastern Cape is the Plan's GHS reference. Framework 10% is a Plan target, not a Group headcount.

3 Named circuits · 2030–33

Expand only where a lawful buy already holds. 1/3/5 hubs per municipality remains a Plan target.

4 Horizon 2037

Framework 30% is the Plan's horizon. Global waits. No invented national volumes. Impact reports programme-reported until audited.

10 / 20 / 30% smallholder procurement and 1 / 3 / 5 hubs per municipality are NFNSP-2 Framework targets. Big Five Impact operationalises lots, plates, nodes and MELIA extracts in named circuits. SupplierAdvisor® does not replace BAS or LOGIS. Instant fortified porridge: water or milk, under a minute.

17 · GOVERNANCE AND RISK — WHAT THIS BRIEFING IS NOT

RISK	MITIGATION
Presented as an awarded NSNP contract	This briefing is a proposal. No government contract is claimed.
2.5 million daily meals read as current	Labelled as DBE-pathway plan, not current headcount.
BAS / LOGIS replacement fear	Explicit non-claim: SupplierAdvisor® does not replace BAS or LOGIS.
Learner data in MELIA extract	Lot-and-kitchen proof only. No learner names. POPIA purpose-limited.
PFMA / MFMA cannot buy the meal	90-day time-boxed legal workstream is ask 3 — before scale.

COMMERCIAL MODEL — LABELLED GROUP FIGURES, NOT GOVERNMENT CONTRACTS

355 000 meals

Programme-reported, not audited public stats

2.5 million children / day

DBE-pathway delivery plan, not current headcount

15 000 SANTACO containers

Pathway design

~20 jobs per mature node

Design intent, to be measured

10% of group profits to Foundation

Standing Group policy

CONCLUSION

The Plan has named Goals, Game Changers and Enablers. The Group has plates, an operating system, and a demonstration design mapped to each of them. What is asked in 90 days is a closed briefing, a named province, a lawful buying path for Game Changer 1.2, a MELIA protocol, and a seat at the tables already written into the Framework. Nothing here is an awarded tender, a current daily NSNP headcount, a replacement for BAS or LOGIS, or a claim to gazette VAT, grants or a Food and Nutrition Security Act.

Dr. Craig R. Muller · craig@bigfivegroup.africa · +27 (0) 82 581 4215 · bigfivegroup.africa
